- c) Consultation with the owner or occupier of the property conducted under Section 78G (3) of the Environmental Protection Act 1990

Informative

A negative reply does not imply that the property is free from contamination or from risk to it, and the reply may not disclose steps taken by another council in whose area adjacent or adjoining land is situated.

The Environment Act 1995 introduced a contaminated land regime forming part IIA of the Environmental Protection Act 1990 which became effective in April 2000. This change saw owner/occupiers become potentially liable for clean up costs as a Class 'B' "Appropriate Person."

Local Authorities are now responsible for preparation of reports on contamination in their respective areas and their subsequent local strategy. Local Authorities will intermittently inspect their areas in respect of contamination and take action against those seriously contaminated areas. Registers of remediation notices and contaminated land identified under Section 78R must also be kept. These registers do not form lists of contaminated sites; rather sites where Remediation Notices have been served. It is intended that information will also be included with regard to the condition of the land in question.

As part of the OneSearch Local Search we will inspect the remediation register where available.

Radon Gas

3.14. Do records indicate that the property is in a "Radon Affected Area" as identified by Public Health England or Public Health Wales?

No

3.14

No. The property is in an area where 0-1% of homes are estimated to be at or above the Action Level.

Informative

"Radon Affected Area" means a part of the country with a 1% probability or more of present or future homes being above the Action Level. Such areas are designated by the Health Protection Agency which also advises Government on the numerical value of the "Radon Action Level" (the recommended maximum radon concentration for present homes expressed as an annual average concentration in the home. Radon concentrations above the Action Level should be reduced below it and become as low as reasonably practicable).

The areas are identified from radiological evidence and are periodically reviewed by the Health Protection Agency or its predecessor the National Radiation Protection Board. Existing homes in Affected Areas should have radon measurements. The present owner should say whether the radon concentration has been measured in the property; whether the result was at or above the Action Level and if so whether remedial measures were installed and whether the radon concentration was re-tested to assess the effectiveness of the remedy.

Radon preventative measures are required for new buildings in higher risk areas. For new properties the builder and/or the owners of properties built after 1988 should say whether protective measures were incorporated in the construction of the property.

Further information on radon, including an indicative version of the Radon Affected Areas map, the associated health risks and common questions and answers is available on the Health Protection Agency (HPA) web site (<http://www.hpa.org.uk/radiation/radon/index.htm>). Alternatively information can be requested from HPA by telephone (0800 614529 [24hr] or 01235 822622 [D/T]) or by writing to Radon Studies, Health Protection Agency, Radiation Protection Division, Chilton, Didcot, Oxon, OX11 0RQ.

Fact Sheet for Homebuyers

Why do I need this search?

Your conveyancer has requested this search to make sure there are no nasty surprises lurking within your property. It is usually a lender requirement that you obtain a local search before they will agree to release the finance you need to complete your property transaction. But what does it all mean?

08 - Civil Aviation Charges	
Description Of Charge (including reference to appropriate statutory provision)	Originating Authority
Reference ABCXX. Aerodrome safeguard zones. Within the boundary of the Aerodrome Safeguarding Area there may be restrictions on all buildings, structures, erections and works exceeding 90 metres in height (295.3 feet) - DfT circular 2003.	North Somerset Council

Local Land Charges

The Land Charges Register will highlight any restrictions on use, or financial obligations placed on the property. These are generally binding on successive owners, so it's very important that your conveyancer explains this part thoroughly to you.

Planning Decisions

Have previous owners been rejected for that extension you had your eye on? Has permission been granted for those double glazed windows on your property that is within a Conservation Area? You can find out in this section of the report.

1.1. Which of the following relating to the property have been granted, issued or refused or (where applicable) are the subject of pending applications:-		
Section 1.1 (a)	Planning Permissions	None
Section 1.1 (b)	Listed Building Consents	None
Section 1.1 (c)	Conservation Area Consents	None
Section 1.1 (d)	Certificate of Lawfulness of Existing Use or Development	None

Section 1.1 (f)	Building Regulations Approvals
Section 1.1 (g)	Building Regulations Completion Certificate
Section 1.1 (h)	Any building regulations certificate or notice issued in respect of work carried out under a competent person self-certification scheme?

Building Regulations

Have any works that have been carried out on property been done with appropriate consent? This section will reveal any applications made to Building Control for changes to the property. This is important as any works without appropriate consent may result in the council taking action and as the new homeowner you would be liable for remediation work.

Planning Designations and Proposals

Local Plans are vital for setting out what types of development can be permitted within a local development framework. This includes housing, business, and essential infrastructure.

1.2. What designations of land use for the property or the area, and what specific proposals for the property, are contained in any existing or proposed development plan?	
North Somerset Council Local Development Framework	
Clevedon, Nailsea, and Portishead	Adopted
North Somerset Replacement Local Plan Adopted#1390	
Local Plan Policy	Conservation Area
Local Plan Policy	Borough Boundary
Local Plan Policy	Forest of Avon
Local Plan Policy	Settlement Boundary

2. Which of the roads, footways and footpaths named in the application for this search are:-				
(a) Highway Maintainable at Public Expense				
Name	Carriageway	Footway	Footpath	Verge
Sample Hill, Portishead	Public	Public	None	None
Footpath to side	None	None	Private	None

Fact Sheet for Homebuyers
